

## TELEWORK EXPENSES IT IS TO THE EMPLOYER TO PROVIDE THEM!

**EUR 125 Flat monthly payment for teleworking cost**  
**EUR 2.000 grant to repay the costs incurred by staff**  
**since 2020**

Brussels, 27 January 2022

- **LEGAL OBLIGATION** in any labour relationship in Europe: The employer must pay or share the cost of the instruments needed to perform the workers' functions
- **ACCUMULATED DEBT WITH THE STAFF:** The administration has contracted a debt towards its staff. **TAO** therefore claims for a fair compensation for costs incurred by teleworkers, backdated to the 2020 lockdowns

The staff has risen to the occasion for almost two years now, it has delivered. Work-related expenses during these exceptional times have to be faced by our employer, not limiting itself to a contribution for a chair or a screen. Light, heating, internet, printing, among others are also work costs.

Our administration has been able to make huge savings thanks to having kept the buildings empty (light, central heating, cleaning staff, etc)

**We urge our administration to implement this basic principle of European social Law among the staff of the European Commission.**
