E-WASTE VS DIGITAL DETOX

Thursday 24/06 - 12:30 - 13:30

A TAO-AFI ONLINE CONFERENCE

Lately we have all heard a lot about e-waste and digital waste. But what does it mean? Are they both the same?

What we do know is that this kind of waste has a very negative effect on the environment and our health, but how negative?

Did you know that 2 google searches uses up the same amount of energy as boiling water in the kettle for your morning tea? Or that every person produces 7.3. kg of e-waste annually? Or that the use of digital technologies causes more emissions than the aviation industry?

Our individual impact seems insignificant but each of our actions add up. By making just a few small changes we can make a big difference.

Join us for our upcoming workshop on E-waste vs Digital detox.

WebEx link will be provided once your registration is confirmed.

Open to everyone – To be noted in your calendars!

Workshop delivered in english but questions may be asked in french too
